COMPANY GENERAL BACKGROUND

The **Emirates Institute for Health & Safety LLC (EIHS)**, Abu Dhabi, is a Quality, Health, Safety, Environment (QHSE) and Healthcare training & Consultancy Company. **EIHS** is one of the first private institutes in the UAE offering internationally recognized training programs (NEBOSH, IOSH, OSHA, NASP, CIEH and ISO standards) to improve the quality, health, safety and the welfare of professionals at workplaces in the GCC. **EIHS** is certified and fully accredited as training center by ACTVET (Abu Dhabi Center for Technical and Vocational Education and Training), and accredited by Abu Dhabi EHS Center and Environmental Agency Abu Dhabi as approved EHS consultancy service provider.

EIHS is fully licensed by HAAD (Health Authority Abu Dhabi) and are accredited as an International Training center for the American Heart Association, (AHA). EIHS is certified by BUREAU VERITAS for its Integrated Management System (ISO 9001, ISO 14001 & OHSAS 18001).

Our main objective is to contribute to the nation's Quality, Health, Safety and Environment (QHSE)

by encouraging employers to empower employees to continually improve and maintain QHSE at the workplace. Our focus is to promote the wellbeing of clients, local communities and the general public who might be impacted by occupational and industrial activities. Another objective is to help employers comply with Health, Safety and Environment Management System (AD-EHSMS) frame framework which aims to regulate and improve the QHSE of the workplace in the UAE.

In order to attain these goals, **EIHS**, in collaboration with its national and international partners, provides state of the art programs in healthcare management,

Occupational and Industrial health, Security Services, Roadway Traffic Safety, various medical and Life Support training courses.

EIHS is supported by a highly qualified, experienced team with exceptional educational backgrounds and expertise such as; Faculty Members of world-wide recognized universities, Environmental Scientists, Healthcare Management & Public Health Experts, Nurses, Nutritionists, Microbiologists and Industrial Hygienists and Occupational Health and Safety Professionals.

EIHS VISION & MISSION

VISION

To be the regional representation of excellence in providing a Quality, Effective and Efficient Professional Service in the domain of Health & Safety to our Partners, Clients and the Community

MISSION

The Emirates Institute for Health and Safety (EIHS) of Abu Dhabi in collaboration with its regional and international collaborators will work together to provide education, consultancy,

training, research, evaluation and awareness services / programs covering all dimensions of health and safety education in the UAE, including, occupational health, public health, nutritional health, environmental health and roadway traffic safety.

EIHS HEALTH & SAFETY STATEMENT

At the Emirates Institute for Health & Safety, we are committed to providing and promoting a

safe environment for all our employees, visitors and stakeholder groups. Together we will actively participate in meeting our Health & Safety objectives and allocate needed resources to assist in the development and implementation of our Health & Safety policy and program.

The Emirates Institute for Health & Safety considers no phase of its operation more important than safety and health protection for all. We seek the support of all staff in improving the standards of health and safety and, to this

end; this Policy Statement promotes open communication and actively encourages suggestions that could lead to improvements in safety and health at work.

It is our intent to comply with U.A.E. Health and Safety Laws and regulations, and EIHS Codes of Practice. Therefore, this policy empowers under the direct authority of the Managing Director, all EIHS staff to stop any EIHS operation or function which they consider unsafe.

OUR SERVICES

STRATEGIC PARTNERS / COLLABORATORS

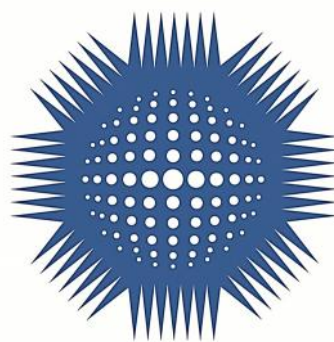

EIHS collaborators:

Collaborator: The National Examination Board in Occupational Safety and Health (NEBOSH)

Website: www.nebosh.org.uk

Description: NEBOSH (The National Examination Board in Occupational Safety and Health) was formed in 1979 as an independent examining board and awarding body with charitable status. We offer a comprehensive range of globally-recognised, vocationally-related qualifications designed to meet the health, safety, environmental and risk management needs of all places of work in both the private and public sectors.

Courses leading to NEBOSH qualifications attract around 35,000 candidates annually and are offered by over 500 course providers, with exams taken in over 100 countries around the world. Our qualifications are recognised by the relevant professional membership bodies including the Institution of Occupational Safety and Health (IOSH) and the Chartered Institution of Water and Environmental Management (CIWEM).

nebosh
Accredited Centre
1053

NEBOSH examinations and assessments are set by its professionally qualified staff assisted by external examiners; most of whom are Chartered Safety and Health Practitioners or Chartered Environmentalists operating within industry, the public sector or in enforcement.

Our technical standards are overseen by a Qualification and Technical Council with representatives drawn from national institutions.

NEBOSH is an awarding body approved by Scottish Qualifications Authority (SQA) Accreditation, which has a UK-wide regulatory remit.

In addition, NEBOSH maintains Investors in People (IIP) status and is also an ISO 9001:2008 registered organisation.

Collaborator: Institution of Occupational Safety and Health (IOSH)

Website: www.iosh.co.uk

Description: The Institution of Occupational Safety and Health (IOSH) is the only Chartered body for health and safety professionals in the world.

Founded in 1945 and have been registered as a charity since 1962. In 2002 we were awarded a Royal Charter.

As the largest health and safety membership organisation in the world, IOSH has more than 44,000 individual members in over 100 countries.

Across the world, two million people die every year as a result of health and safety failures therefore we're committed to creating "A world of work which is safe, healthy and sustainable". That's why one of our main aims is to maintain high standards throughout the profession via the training courses IOSH delivers. IOSH is one of the world's leaders in health and safety training – more than 130,000 people take one of our courses every year.

Collaborator: National Association of Safety Professional (NASP)

Website: www.naspweb.com

Description: The National Association of Safety Professionals is a non-profit membership organization providing training, consultative services, and third-party certifications that validate knowledge, skills and abilities in the area of workplace safety. The National Association of Safety Professionals (NASP) is the United States Division of the non-profit International Association of Safety Professionals (IASP). We currently have approximately 10,000 members with a client list (members, former members, and trainees) of approximately 30,000.

The primary mission of the National Association of Safety Professionals is to provide safety professionals with innovative training opportunities and certification to assist them in carrying out their safety related functions with

confidence while assuring a high level of competence.

The NASP was formed in 2000 by a group of safety professionals. These men and women were safety trainers, consultants, and safety directors who wanted to provide cost effective workplace safety training and consulting to business and industry. The founders also desired to provide professional credentials to safety professionals who were largely self-taught, trained on the job, or educated by independent study. Today our roles include people from every background: from those trained and educated unconventionally to those holding safety related PHDs; from the part-time safety committee member to the international corporate safety director.

Collaborator: Highfield Awarding Body for compliance (UK)

Website: www.highfieldabc.ae

Description: Highfield ABC provides EIHS with:

Highfield Awarding Body for Compliance (HABC) is the UK and Middle East's leading supplier of compliance qualifications and apprenticeships. We offer over 200 qualifications. HABC is regulated by Ofqual, the Welsh Government, the Scottish Qualifications Authority (SQA) and the Security Industry Authority (SIA). HABC is a family-run business, operating on the core values of quality, value, service and integrity.

The Middle East's Leading Awarding organization for Compliance Qualifications and Training Materials. HABC has launched a branch in the UAE which will ensure that customers will be able to enjoy:

- ✓ Accredited qualifications approved by the Regulatory Authorities in the United Kingdom and recognised throughout the world;
- ✓ Fast turnaround times, as qualifications will be marked and certificates distributed in UAE;
- ✓ A global company that is also able to act at a local level due to having a highly skilled team based in the area;
- ✓ Qualifications that have been endorsed by UAE government bodies; and
- ✓ Extremely competitive prices whilst maintaining quality

Collaborator: American Heart Association
Website: www.heart.org

Description: High standards of life support training is given through the American Heart Association, in alignment with Abu Dhabi Police.

innovative research, fight for stronger public health policies and provide lifesaving tools and information to save and improve lives.

The American Heart Association is the nation's oldest, largest voluntary organization devoted to fighting cardiovascular diseases and stroke. Founded by six cardiologists in 1924, our organization now includes more than 22.5 million volunteers and supporters working tirelessly to eliminate these diseases. We fund

American Heart Association

Learn and Live

Our nationwide organization includes 144 local offices and nearly 2,700 employees. We moved our national headquarters from New York to Dallas in 1975 to be more centrally located. The American Stroke Association was created as a division in 1997 to bring together the organization's stroke-related activities.

Partner: Global Sigma Inc.
Website: www.globalsigma.com

Description: Global SIGMA is a consortium of internationally positioned providers of risk management, security and support services, operating in domestic and complex international markets, offering quality, tailored and turnkey solutions.

Global SIGMA's thought provoking motto is loaded with implication:

Such services include various aspects of:

- ✓ Physical Facility Security
- ✓ Corporate Protective Services
- ✓ Security Risk Management
- ✓ Emergency Crisis Management and Humanitarian Aid
- ✓ Rule of Law Capacity Building and Security Sector Reform
- ✓ Training Solutions
- ✓ Logistics and Support Services
- ✓ CBRNE Training and Support

Knowledge = skill, expertise, experience, foresight, intelligence
 Prevention = risk aversion, research, planning, observation, investigation, mediation
 Protection = to create a barrier, a layer of security, to defend, ensure continuity

In short, managed risk and security.

Mission: To provide our clients with a professional and comprehensive security, risk management, and support services solution of the highest possible standard.

Approach: Professionalism, Discretion, Integrity, Dependability, Quality.

Partner: CONOPS Group
Website: www.conopsgroup.com

Conops Group, is an international British company and services provider in the field of security solutions designed to protect personnel, assets, projects and operations, with its head office based in the United Kingdom. CONOPS provides definitive security solutions designed to protect personnel, assets, projects and operations.

Applying a multi-layered approach to security, CONOPS services include:

- Delivery of specialist training to Military, Law Enforcement and Protection Agencies.
- Installation and integration of technology systems and sensors providing C4ISTAR capabilities ensuring security and integrity of critical assets and infrastructure.
- Provision of highly experienced security personnel in maritime and land based area of operation.

Collaborator: Southeast Environmental Microbiology Laboratories
Website: www.seeml.com

Description: Founded in 2000 to provide top notch, great customer support; **SEEML** is a totally independent laboratory that is not in any way owned by or partnered with any of your competitors. Our focus is devoted solely and totally to laboratory services, and we do not offer any type of services that might potentially compete with our clients. SEEML was established to meet the specific needs of industrial hygienists and other professionals by providing responsive and cost effective environmental microbiology laboratory services tailored to the indoor air quality

specialty. It is the level superior service, expertise and technical support we furnish to our clients that sets SEEML apart from other microbiology laboratories. Our technical staff includes Environmental Microbiologists/Mycologists; they have combined over 20 years of laboratory analytical experience. Our Testing laboratories in Environmental Microbiology are located in Greenville, SC and Dubai, UAE. Our goal is to become the preferred laboratory for Environmental Microbiology testing. We are ISO 17025: 2005 International standards accredited.
