

Fact Sheet: CPR/AED

Qualification Number: 600/1703/X Number of Credits: 2

HABC Level 2 Award in Cardiopulmonary Resuscitation and Automated External Defibrillation (QCF)

This accredited qualification is ideal for learners who require further training or wish to develop knowledge and/or skills in this subject area. It is suitable for first aiders in the workplace environment who have access to a defibrillator. The qualification maintains good practice in the safe, prompt and effective administration of cardiopulmonary resuscitation and automated external defibrillation. Subjects covered include basic life support and safe use of a defibrillator.

How long will it take me to achieve this qualification?

This qualification is usually achieved by taking a one-day course.

How is the qualification assessed?

This can be done by either of the following two options:

Option 1 – Multiple-Choice Assessment

Learners must answer a series of multiple-choice questions across the breadth of the course syllabus within a specific time frame.

Option 2 – Open Response Assessment

Learners must provide a short response to questions across the breadth of the course syllabus throughout the duration of the course.

What next?

Individuals achieving this qualification may wish to undertake further First Aid qualifications including:

- HABC Level 2 Award in Emergency First Aid at Work (QCF)
- HABC Level 3 Award in First Aid at Work (QCF)

Where can this course be taken?

Through any HABC approved training centre.
